351 Unit 3A Romari Building Quirino Highway,  
Sangandaan 1116 Baesa, Quezon City

# OUR COMMITMENT

*We are dedicated in providing you with high quality services for any filtration needs.*

- Professional & Reliable
- Customer-Focused
- Proven Results
- Comprehensive Support

# OUR SERVICES

## Flushing & Filtration

Cleaning of lubricating system and purification of service oil to the required ISO/NAS standard.

## Particle Count

Measuring the actual ISO/ NAS cleanliness of lubricating oil both offline & online.

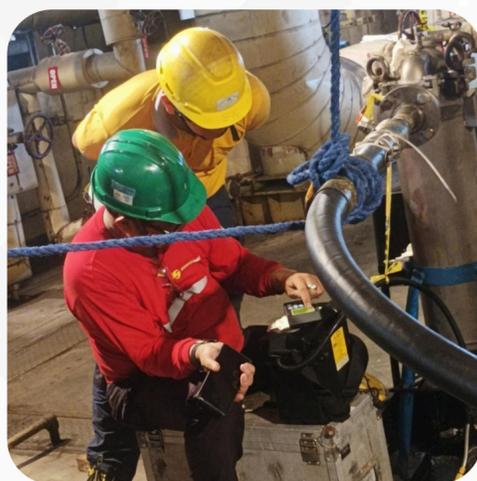

## Installation & Commissioning

Installation of supplied equipment to customers and start-up of the equipment for customer's acceptance.

# NOTABLE PROJECTS:

**APEC  
2025**

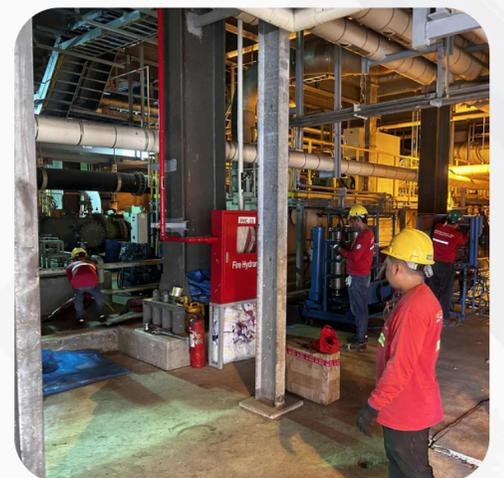

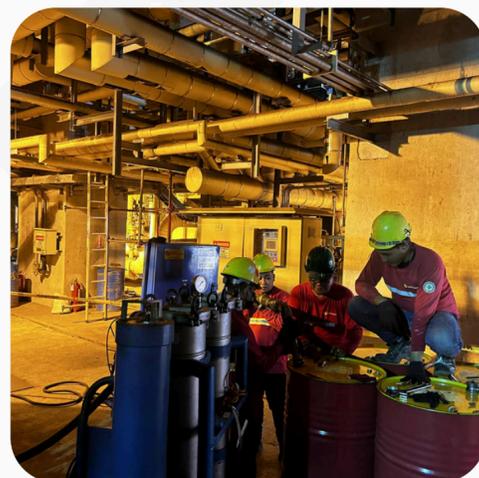

Efficient turbine oil filtration from ISO Tanks 1-3 to the APEC Main Oil Tank, complemented by on-site oil testing with APEC Mechanical and an initial turbine oil analysis using a precision particle counter.

# MALITA POWER 2025

Comprehensive turbine oil purification using a portable vacuum dehydrator and dual-stage filter skid, ensuring cleanliness requirements are met, with particle counter testing on the Main Oil Tank for quality assurance.
